IDENTIFIED ART SITES

Site #1:

1 3D STAIR TO OSH
at 1/8"

Sculptural site for suspended artwork. Ceiling is 22' off the 2nd Floor balcony and an additional 10' to the First Floor depending on where the artwork is installed. Depending on where the artwork is suspended, the ceiling space may be 18' X 18' in area.

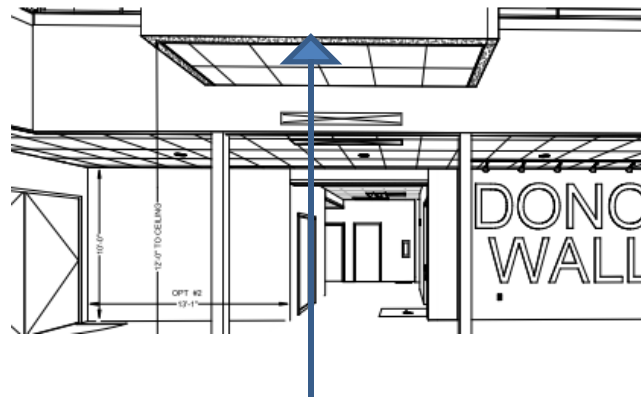

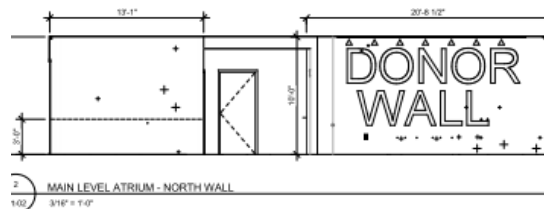

2 ART OPT #1 - REFLECTED CEILING PLAN WITH STRUCT. ABOVE
at 1/8" = 1'-0"

Top view: Every effort will be made to work with the artist to determine exact measurement and placement along with ceiling and joist information for suspension of the artwork.

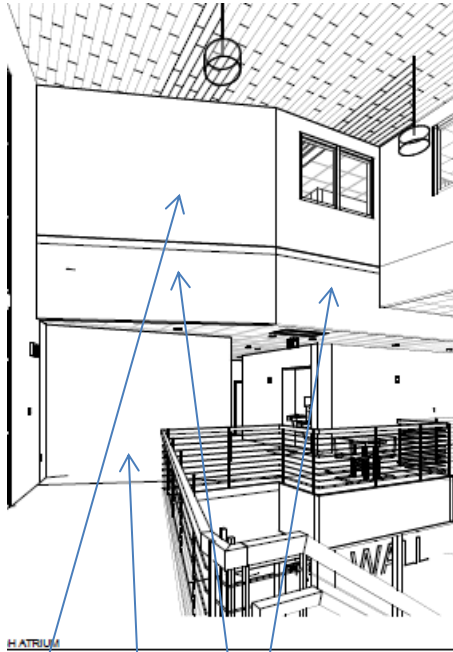

Site #2:

Overlook wall, or beneath wall as a suspended piece between the columns. 24" x13'1" wide and 10' tall from First Floor to bottom of overlook balcony. Artwork could use the space 2' -2'6" below the overlook and be suspended from the overlook and between the columns.

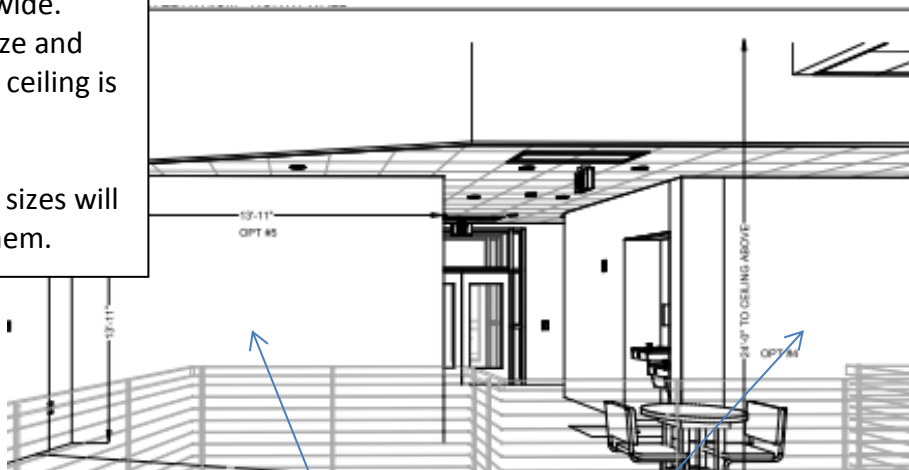

Site #3:

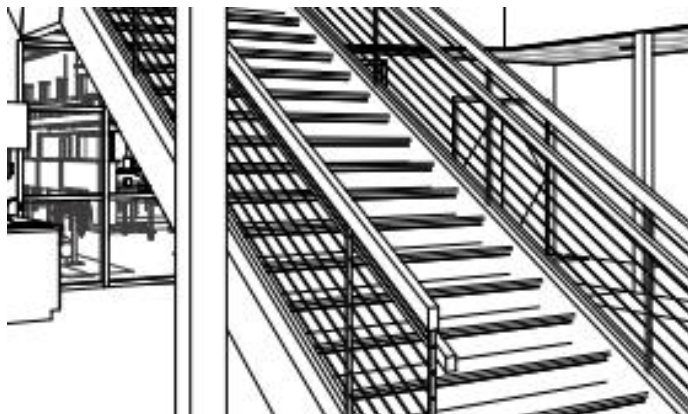

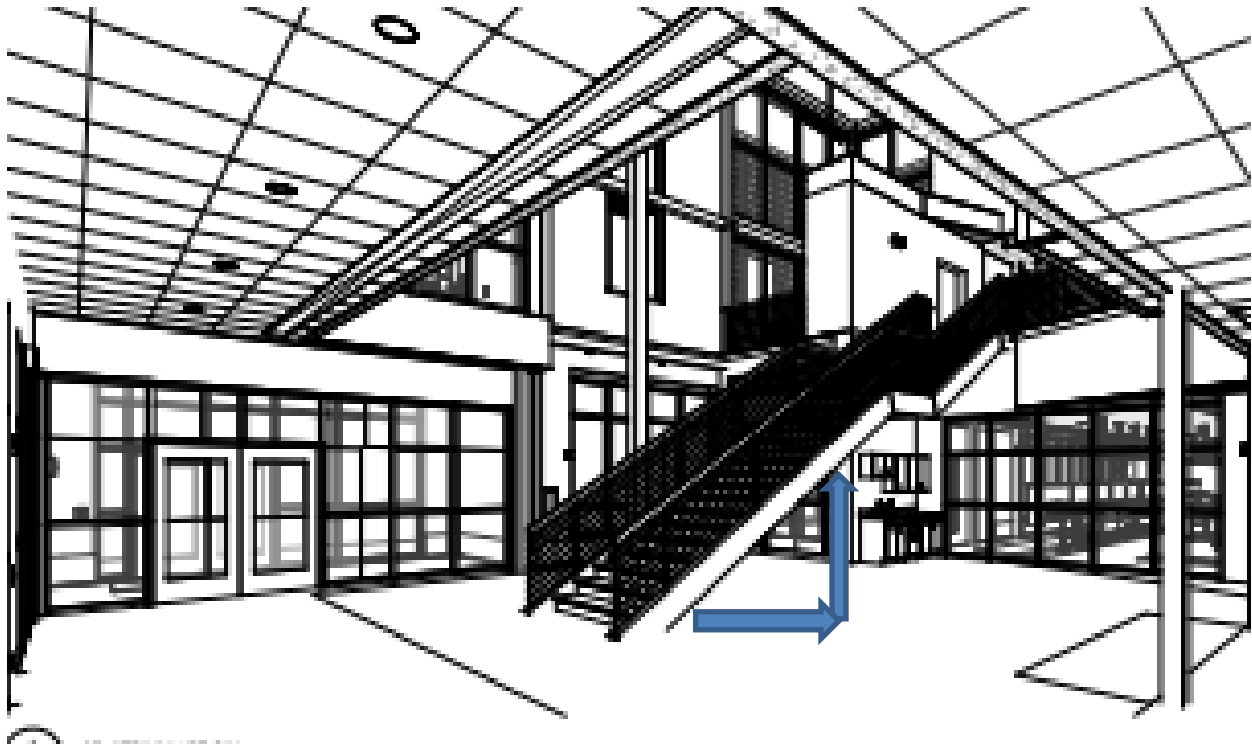

Flatwork and low projection 3-D artwork space. Lower wall: 13' 1" high to ceiling and 13'1' wide. Wall above is similar in size and total height from floor to ceiling is 24'.

More information about sizes will be added as we obtain them.

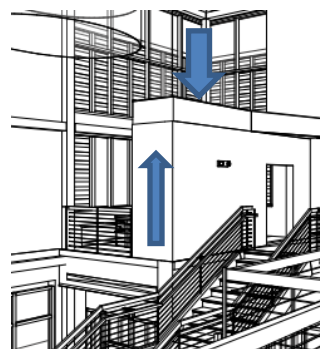

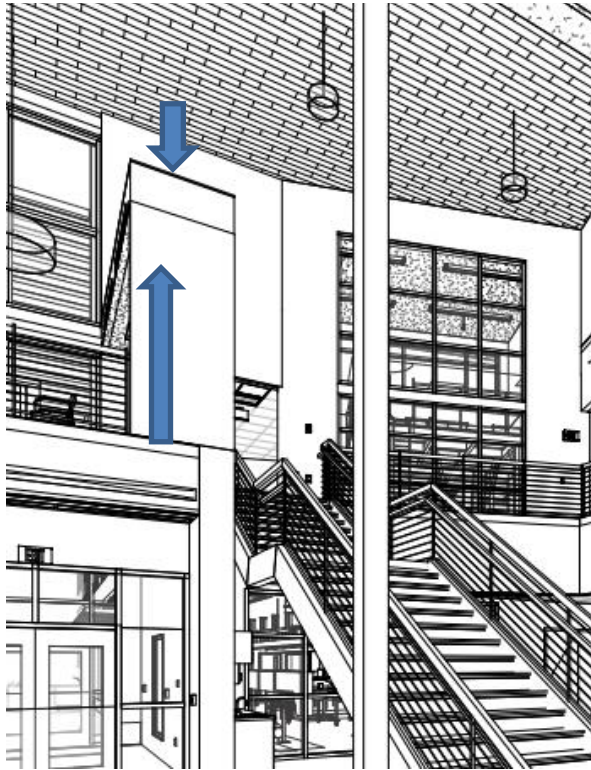

Site #4: Under Staircase: Sculptural Work

Sizes will be made available as soon as they are available to us

Site #5: Top and Sides of a Dividing wall to a study area. Appropriate for flatwork, and sculptural designs that might begin on the top edge and come over onto the wall.

Sizes of this artsite will be made available as soon as they can be obtained.
